INTRODUCTION.

Knowing the necessity for a system of Tables, to show the Cost of Paper per Quire, from One Quire to One Ream, of the different Weights, at various Prices per Pound, in order to save time and insure accuracy, I have, after much thought and labor, arranged the Tables in this Book, and believe it will prove a great help and a true guide for those who have to calculate the cost of Paper.

Respectfully,

A. L. CAMPFIELD.

SAM'L BINGHAM'S SON,

—MANUFACTURER OF—

Printers' Rollers, ^{AND} "Standard" ^{AND} "Durable" Roller Compositions.

147 & 149 Fifth Avenue, CHICAGO.

The "Durable" is a re-melting Composition, and can be kept in stock for an indefinite period. It can be made hard or soft by the Printer, by following the printed instructions sent with each package. The "Standard" is an old reliable Composition, warranted to work the strongest Inks in all weather. It will not re-melt, but can be used in wet and sticky weather, when other Compositions are useless.

Price, Standard, 20 cents per Pound.

Durable, 35 cents per Pound.

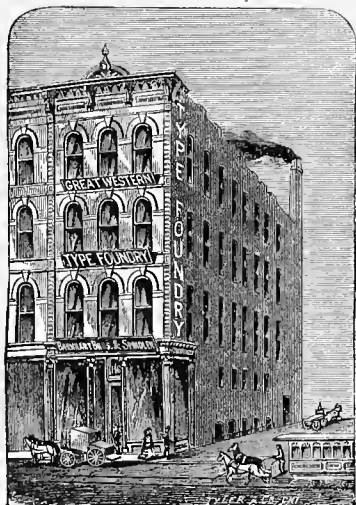

Printers ordering Composition, will please send information as to the style of Press, rate of speed, quality of Ink used, and temperature of press-room.

Cost of 30 lb. Paper, per Quire, from 1 Quire to 1 Ream, at from 10 to 25 cents per lb.

THE HANDY CARD SCALE.

EXPLANATION.

Measure the length of your card on one side of the line and the width on the other side; multiply the figures thus found and you will have the number that can be cut from a sheet; find that number in the table, and it will tell you how many sheets are required for 1000 cards, full count.

PRICE, 25 CENTS.
